Who would have thought that a short 40 page kids book would spawn a successful movie franchise that would go on to make millions. The Shrek franchise supposedly comes to an end with Shrek Forever After, though we all know that is mostly never the case, and fans can now find their favorite green ogre's complete set of adventures in a complete boxset titled The Whole Story. In it you get all four of the Shrek films, bonus features, as in this case Blu-Ray exclusive bonus features, and a new short film titled Donkey's Caroling Christmas-tacular. If you're a fan of the franchise and your looking to upgrade to Blu-Ray this is a must have.
