Ben 10 returns in an all new regeneration of his previous show, Alien Force, with Ultimate Alien. This time the Omnitrix has gathered the most potent forms of his alien incarnations. Does this mean this is the end for Ben 10. The show has gradually moved from Ben being a young Boy who somehow stumbles across the Omnitrix and discovers that his Grandfather is part of an intergalactic policing force to his adjustment to the powers of the Omnitrix and his willingness to take on evil head on. With his alien forms at their peak power it seems like the show has nowhere left to go? Or does Man of Action have a trump card up their sleeve?
