Alien lizard people have come to Earth to take it over! The Visitors have come telling the world that they are here to share with the people of Earth their knowledge for just a small amount of the planets resources. When the Visitors plans start to take a turn for the worse after Anna's (played by Morena Baccarin) warrior eggs are destroyed she begins the process of her true goal. The war has begun and the sides are being decided, though with sleeper agents coming from the Visitors and the resistance, neither side really knows what the others are doing. With tension building between Anna and her daughter Lisa (played by Laura Vandervoort), Erica (played by Elizabeth Mitchell) takes the opportunity to gain the help of Lisa in finding out what her mother is really up to but this might lead to more trouble than either of them expected.
