Movies and books have made time travel possible but when in reality having a car that can take you back in time or forward for that matter, it's not going to happen. Not that time travel is impossible, in fact we can do it very easily with just a simple decision of turning on the radio or playing a song that's from the past. Maybe not quite the time travel you were expecting but a song from the 60's is a glimpse into the past but when it comes to the new album by Pete Molinari called "Theosophy" has a sound that is from the past.
