The series follows Elliot Alderson, a young man living in New York City, who works at the cybersecurity company Allsafe as a security engineer. Constantly struggling with social anxiety disorder and clinical depression, Elliot's thought process seems heavily influenced by paranoia and delusion. He connects to people by hacking them, which often leads him to act as a cyber-vigilante. He is recruited by a mysterious insurrectionary anarchist known as Mr. Robot, and joins his team of hacktivists known as fsociety. One of their missions is to cancel all debts by taking down one of the largest corporations in the world, E Corp (which Elliot perceives as Evil Corp), which also happens to be Allsafe's biggest client.
