I was expecting from Dave Chappelle's Block Party to see line up of performers like Erykah Badu, Kanye West, Dead Prez, Mos Def, The Fugees and for it to blow your mind. I wasn't wrong about that; but what I didn't see coming is what made this movie so much more than just live concert footage. There is backstage footage of Dave hanging out with many of the musicians and some warm-up setting stuff up shit too. What is great though is when Dave hits the streets.
