one of the best comedies on TV.

THE END.

Still one of the worst films I've ever had to watch.

This is the yard stick against which I measure other horrible movies.

I love Thrice and I'm a sucker for concept albums...so basically it's like the Alchemy Index was cooked up by some mad scientist just to make me happy. This volume has some of the best music they've ever created, from "Burn The Fleet" to the one-two punch of "Night Diving" & "The Whaler."

never punches and tells...
